2021 FISHING BOATS catalog!

**I'M SO PROUD TO BE PART OF THE PRINCECRAFT® FAMILY.** The year 2020 is definitely one for the history books. Now more than ever the health and safety of our employees, customers, partners, and communities are our top priority. I'm pleased to see that during this period, we've stayed strong and stayed the course, rallying our staff, and working hard to innovate, design, and build boats ever better tailored to your wants and needs.

Princecraft® is a Canadian company; our employees, designers, and suppliers live and work in the community and are experts at building superior quality products. At the same time we're backed by the strength of the Brunswick Group, an industry pillar renowned for its reliability.

Princecraft® is more determined and motivated than ever. We've got a passionate team working hard to develop and bring you the products in our lineup for the new year.

To help you choose the right boat for you and your activities out on the water, we invite you to visit our exciting, user-friendly Website and Facebook page. They're chock-full of great information about our products. Or you can stop by your local Princecraft® dealer if you prefer shopping in person.

Boating is a great way to relax and have fun for you and your family and friends.

Princecraft® is the ultimate choice for making the most of your time on the water, whether for sports or recreational fishing, outings with family or friends, or simply to quench your thirst for adventure. At Princecraft®, you'll find the perfect boat to live your passion to the fullest.

On behalf of the entire Princecraft® team, as well as our suppliers and partners, I would like to thank you for all your trust and loyalty to our products.

**RODIER GRONDIN**, President

# WHY CHOOSE A PRINCECRAFT® PONTOON BOAT?

**WITH A FLAWLESS TRACK RECORD GOING BACK MORE THAN 65 YEARS, PRINCECRAFT® IS PROUD TO BE A TRUSTED PARTNER FOR BOATING ENTHUSIASTS.**

As the company has grown, our boats have gradually developed to the point where boat and skipper are now virtually one. We've mastered a manufacturing process that delivers the relentless reliability our customers want and the toughness to stand up to virtually anything. Princecraft® continues to lead the pack by listening to what our customers need and making sure we give them just that.

We know how to leverage the latest technology to manufacture pontoons of uncompromising quality. Our state-of-the-art processes use high-quality 5052-H36 aluminum. We're one of the few companies in North America to use it and we're proud to deliver an end product that has earned a solid reputation in the boating community. The H36 marine alloy is cut and folded in a single piece and is 25% harder than any other aluminum alloy in the industry. Its yield strength is so high that it's virtually impossible for it to lose its shape. Boaters enjoy a smoother ride and peace of mind because H36 is more scratch resistant than other materials.

**« AS THE COMPANY HAS GROWN, OUR BOATS HAVE GRADUALLY DEVELOPED TO THE POINT WHERE BOAT AND SKIPPER ARE NOW VIRTUALLY ONE. »**

All the equipment on Princecraft® pontoon boats is marine grade, for long-term moisture resistance. The electronic components use waterproof connectors, and our stainless steel and aluminum hardware is extremely durable and won't rust. In terms of technology and performance, we take pride in our heavy-duty, lightweight engine pod. The hydrodynamic V-shape design helps your pontoon cut through the water while keeping the outboard motor at the ideal height. We use extruded aluminum M-brackets with four contact points on the top and sides of the pontoons to make the frame as strong as it can possibly be. Pontoons come in four different configurations: Performance, Sport, Speed, and Classic. For optimum performance, each pontoon has several hermetically sealed chambers that are thoroughly tested for watertightness before they leave the factory.

The decking is ¾ inch pressure-treated plywood, and our seat bases are reinforced and bolted down through an aluminum plate under the floor for maximum sturdiness. Fasteners for tops and canvas enclosures are manufactured from personalized templates and factory installed for a precise fit, whatever the year or series of your boat. Several fishing models have fold-down fishing seats, a trolling motor outlet, storage space for batteries and fishing rods, and livewells.

Rest assured that when you choose Princecraft® pontoon boat, your safety is in the hands of our experienced research and development team and our detail-oriented employees. They're experts in crafting comfortable interiors and outstanding finishes. Complete your boat shopping experience with a range of options to satisfy every need and our comprehensive warranty.

To sum up, our vast expertise and unsurpassed attention to detail have made us a leader on the North American boating scene. Princecraft® delivers the high standard you expect. Your pontoon is designed to last and deliver decades of adventure on the water!

## BIG ADVANTAGES

The harder the material, the better it holds up to dents and abrasion. In fact, the H36 acts kind of like an airbag for your boat. It has such a high yield strength level that it's virtually impossible to dent. So it's the best way to keep you protected and safe while you're on the water.

If you run aground or hit a rock with your Princecraft®, you can rest assured that your boat is as solid as they come. We've put the H36 alloy through the ringer in rigorous comparative lab trials\*, and the results are very conclusive: the H36 is much more likely to hold its shape on impact than the H32 and H34 alloys used by the competition.

## OUR SECRET: H36 ALUMINUM

Princecraft® hulls and pontoon tubes are the strongest and most durable on the market because they are made with the best marine-grade aluminum in the business, 5052-H36.

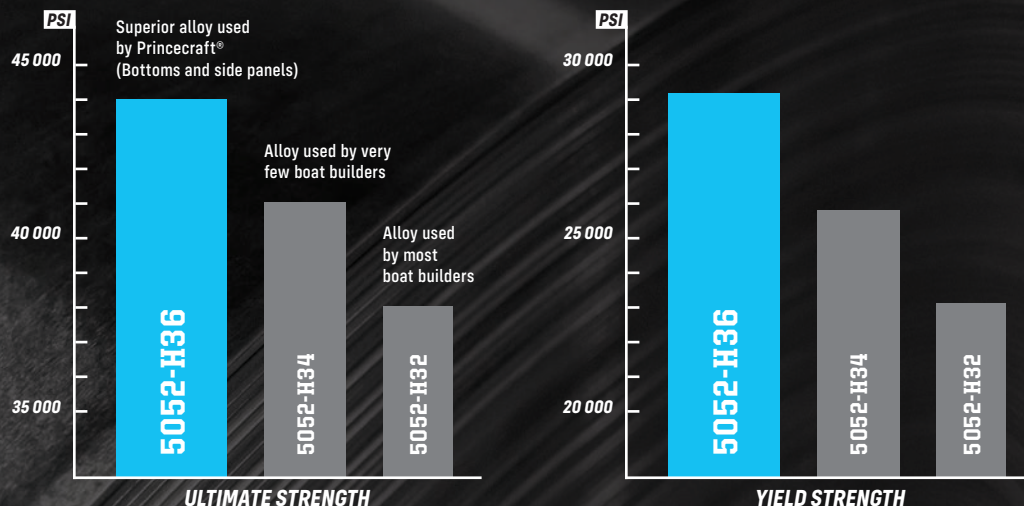

- › **25% STRONGER THAN THE ALUMINUM USED BY MOST OF OUR COMPETITORS**
- › **MAINTAINS PEAK PERFORMANCE**
- › **HELPS BOOST BOAT RESALE VALUE**
- › **MORE RESISTANT TO SHOCK AND WARPING**

## DID YOU KNOW?

To achieve a harder aluminum alloy, big blocks of aluminum are pressed in rollers until reduced to the desired thickness. The higher the number after the H, the more tightly the aluminum is compressed for greater rigidity.

\* Study conducted by Alcoa Innovation in 2011

## PONTOONS: BRILLIANTLY DESIGNED FROM START TO FINISH

### QUIET PROPULSION

The V-shaped motor pod cuts engine noise and vibrations.

### UNSINKABLE PONTOON TUBES

The toughest marine grade aluminum alloy available (5052-H36) provides better load capacity. Multiple airtight chambers make our pontoons virtually unsinkable. Each chamber is subjected to strict pressure checks to ensure our pontoons provide maximum safety.

### STRONGER CORE STRUCTURE

Extruded aluminum M-brackets and Z-bars are tougher and more reliable, creating exceptionally high performing frame and core structure.

### REINFORCED AERODYNAMIC TUBE NOSES

(standard on Vogue® Series and on Performance, Sport, and Speed Configurations) The extra long, reinforced bow breaks waves smoothly. Built-in splash guards on the tubes ensure a dry ride.

### FULL-LENGTH KEELS FOR INCREASED STABILITY

Full-length, extruded aluminum keels on the tubes guarantee a smooth ride—even in choppy water—and absorb bumps when landing on sandy or rocky beaches.

### DURABLE, WATER-RESISTANT DECKS

Built with 2 cm (3/4") pressure-treated plywood and backed by our limited lifetime warranty, our decks are designed to last for years.

## DECK BOATS: SOLID PERFORMANCE

Everything about our deck boats—the exceptional design, assembly, welding, riveting, precise adjustments, series of tests they undergo, and flawless finish—is the result of painstaking attention to detail.

Plus, they're made with the toughest marine grade aluminum alloy available (5052-H36) and aircraft grade adhesive.

**THE RESULT IS A SOLID, HIGH PERFORMING WATERCRAFT THAT IS  
LIGHTWEIGHT AND ASTONISHINGLY STABLE.**

# OPTIONAL SPEED, SPORT, AND PERFORMANCE CONFIGURATIONS

## POWER AND SPEED: CHOOSE WHAT'S RIGHT FOR YOU

Princecraft® offers a number of performance configurations to ensure your pontoon boat is perfectly adapted to your needs. Our advice: choose the one that will meet all your needs for years to come!

★★

### CLASSIC CONFIGURATION

These pontoon boats are equipped with a double pontoon, which provides stability, maneuverability, and a high degree of comfort for both driver and passengers. This configuration is perfect for outings with friends, fishing excursions, and long trips that do not require high speeds.

*The Classic Configuration is offered by default on all models except Vogue® 27 XT, Vogue® 27 RL, and Voyageur 27.*

★★★

### SPEED CONFIGURATION

Want to go faster, cover greater distances, or get from A to B more quickly?

Add reinforced tube noses and lifting strakes to your 2-log pontoon boat. You'll increase your maximum speed by 25 to 30%.

*Available on all models except: Vogue® 27 XT, Vogue® 27 RL, Vectra® 19, Vectra® 17, Jazz Series, Brio Series, and Voyageur Series.*

★★★★

### SPORT CONFIGURATION

Choose the perfect compromise between Speed and Performance Configurations: adding reinforced tube noses, bow central half third log, and lifting strakes to reach speeds while having an affordable configuration.

This configuration allows a motor range from 90 up to 200 horsepower. Available on 21 thru 25 foot long pontoons (Vectra®, Sportfisher, Sportfisher LX, Quorum®, and Vogue® Series).

*Available on all models except: Vogue® 27 XT, Vogue® 27 RL, Vectra® 19, Vectra® 17, Jazz Series, Brio Series, and Voyageur Series.*

## PERFORMANCE CONFIGURATION

The Performance Configuration adds a third pontoon, which further increases maneuverability, stability, and buoyancy.

This allows your pontoon boat to handle a more powerful motor (up to 450 HP, Vogue® Series only) that will propel you through the water more quickly. Perfect for water sports fans!

Available on all models except: Sportfisher 21-2RS, Sportfisher 21-4S, Sportfisher 21-2S, Vectra® 21 RL, Vectra® 21 LT, Vectra® 21, Vectra® 19, Vectra® 17, Jazz Series, Brio Series, and Voyageur 21.

### MORE POWER, MORE SPEED

The Performance Configuration is the best choice for thrill fans!

## PONTOON SPECIFICATIONS

Includes 3rd log, aluminum under-deck spray shield<sup>1</sup>, lifting strakes, reinforced tube noses, 185 L/49 U.S. gal. gas tank, and an in-floor storage compartment<sup>2</sup>.

The Performance Configuration is offered by default on the following models:

› Vogue® 27 XT, Vogue® 27 RL, and Voyageur 27.

<sup>1</sup> The aluminum under-deck spray shield is full-length on the Vogue® Series.

<sup>2</sup> The in-floor storage compartment is not available on the following models: Sportfisher LX 23-4S, Voyageur 27, Voyageur 25, and Voyageur 23.

FULL-LENGTH ALUMINUM UNDER-DECK SPRAY SHIELD (VOGUE® ONLY)

## 5 FEATURES OF THE PERFORMANCE CONFIGURATION

- 1 A third full-sized tube lets you install a more powerful motor and improves stability, performance, and load capacity.
- 2 Lifting strakes reduce the surface of tubes in the water, improving performance and helping the pontoon plane at high speeds.
- 3 Hydraulic steering improves maneuverability at high speeds.
- 4 Reinforced pressure points on stress zones (e.g., tube noses) absorb more impact and pounding from waves.
- 5 An under-deck aluminum spray shield prevents waves from hitting the cross channels for a smoother ride and better performance at high speed.

# CUSTOM MULTIFUNCTION TRAILERS

**YOUR CUSTOM-MADE, HEAVY DUTY PRINCECRAFT® TRAILER FOLLOWS YOU  
WHEREVER YOU GO TO MAKE YOUR LIFE EASIER!**

## CUSTOMIZED TRAILER

### FOR DECK BOATS

- › Custom-made to fit your boat's hull
- › Composite fenders with built-in step pads
- › Large radial tires
- › Single or tandem axle, depending on boat size
- › Heavy duty winch
- › Load guides
- › Black or galvanized
- › Swing tongue

## GALVANIZED, BUNK STYLE SINGLE-AXLE TRAILER

- › Available with Voyageur 21, Jazz Series, Vectra® 17 / 19 / 21 / 21 LT / 21 RL, and Sportfisher 21-2S / 21-2RS / 21-4S

## GALVANIZED, TANDEM-AXLE, SCISSOR-LIFT TRAILER

- › Convenient for shallow water
- › Engineered to lift pontoon out of the water or off the ground
- › Standard brakes

## GALVANIZED, BUNK STYLE, SINGLE-, TANDEM-, OR TRIPLE-AXLE TRAILER

- › Designed for long distance travels
- › Superior load capacity
- › Standard brakes
- › Possibility of adding an optional conversion kit for 3-log pontoon models

Most Princecraft® trailers are equipped with this system

This ingenious system combines the advantages of grease and oil to create an ultra high performance lubricant. At room temperature, its viscosity is similar to that of grease. But as the bearings heat up, the lubricant becomes more fluid coating the bearings better to more effectively reduce friction and dissipate the heat generated during towing.

Each bearing is encased in a completely sealed, airtight, leak-proof, pressurized chamber.

1 Heavy-duty winch\*

2 Carpeted load guides\*

3 Tongue jack\*

4 Optional mag wheels\*

5 Waterproof recessed LED lights\*

\* On most models or optional

# CANVAS AND COVERS: A PERFECT FIT

**INSIST ON CUSTOMIZED CANVAS TOPS AND COVERS FOR YOUR PONTOON OR DECK BOAT. AS ALWAYS, PRINCECRAFT'S STANDARD OF QUALITY ENSURES TOTAL SATISFACTION!**

- › Made exclusively with durable marine quality fabric
- › Superior resistance to wear and tear
- › Superior water repellence thanks to a transparent acrylic coating
- › Precision fitted, high quality windows, zippers, and fasteners
- › Custom-designed for a perfect fit in a snap
- › Stows easily

## BIMINI TOP<sup>1</sup>

**PLEASE READ CAREFULLY:** Dimensions, capacities, ratings, and additional specifications, plus complete warranty and service information, are available from your Princecraft® dealer. Product illustrations and data within this catalog are based upon information available at the time of publication. Not all accessories shown in pictures or described herein are standard equipment or even available as options. Specification measurements are approximations and subject to variance. Because Princecraft® is dedicated to constant product improvements, Princecraft® reserves the right to make changes without prior notice or obligation. Not all model year boats may contain all of the features or meet the specifications described herein. Ask your Princecraft® dealer for the most current product specifications prior to purchase. Some of the equipment shown separately or on products illustrated in this catalog may be optional at extra cost. Options and features are subject to change without notice. Princecraft® is a member in good standing of the National Marine Manufacturers Association (NMMA) USA and Canada. All boats comply with Canadian Coast Guard and U.S. Coast Guard regulations. All Princecraft® boats are in compliance with NMMA's Boat Certification Program.
