2022 FISHING BOATS catalog!

ALWAYS READY TO TAKE ON MAJOR CHALLENGES!

In 2021, our main challenge has been to maintain our production capacity to meet our high volume of demand, and looking at our results, we are proud to be able to say mission accomplished.

This new model year is shaping up to be another very impactful one, with many challenges to be met, including those related to operations, procurement and manpower. Once again, we will have to reconcile all of our efforts and continue to focus on the issues that lie ahead of us: maintaining a strong and rigorous process in relation to Covid-19 to ensure the safety of our employees, developing a strategy in our supply chain to guarantee material coming from our suppliers, achieving operational excellence by improving our processes, increasing our production capacity while continuing to raise our standards of product quality and, finally, attracting and retaining talent from here and else-

**« [...] WE WILL HAVE TO RECONCILE
ALL OF OUR EFFORTS AND CONTINUE
TO FOCUS ON THE ISSUES THAT LIE
AHEAD OF US [...] »**

where by becoming an employer of choice in our region.

Faithful to our brand, we are once again very pleased to present our product line that perfectly meets all our criteria, including innovation, elegance, performance and remarkable construction quality. We remain attentive to your needs and tastes, always trying to surpass ourselves in order to adequately meet your requirements. With our boats, you can proudly navigate in complete safety and enjoy wonderful moments with your family and friends.

How to discover our products? In addition to browsing through our beautiful catalogs or visiting your dealership, we invite you to surf our website, as we have developed a new digital approach where you can now see each model virtually, descriptive video clips and even some boats in action. What could be better than seeing the boat of your dreams as if you were there in real time?

I will conclude by saying that the strength of our team is the key to our success. Circumstances experienced worldwide have forced us to change certain things, and we have managed to adapt. Our team is composed of passionate people, proud and mobilized around a single objective: a commitment to offer you the best product possible for your greatest satisfaction.

Thank you for always trusting Princecraft® products!

RODIER GRONDIN, president

THE PONTOON: FREEDOM, SUN AND GOOD COMPANY

AT PRINCECRAFT®, WE UNDERSTAND THAT THE SAFETY AND DURABILITY OF YOUR BOAT ARE ESSENTIAL TO YOUR ENJOYMENT OF THE WATER. THAT'S WHY WE OFFER A LINE OF DURABLE ALUMINUM PONTOONS BUILT WITH EXCEPTIONAL MANUFACTURING PROCESSES AND PROVEN MATERIALS, INCLUDING H36 MARINE ALUMINUM ALLOY.

For over 65 years, Princecraft® boats have distinguished themselves through high-quality design techniques. Aluminum pontoons are no exception.

- › The full length aluminum floats are divided into watertight sections and sealed by airtight partitions. Each of these sections is factory tested.
- › Rigid aluminum Z-brackets and M-supports are fixed securely to the surface and reinforce the central structure.
- › The pressure-treated ¾ inch plywood floor is covered with marine-grade carpet or vinyl ready for the configuration of your choice.

POWER AND FREEDOM

Looking to enjoy long, relaxing days on the water with friends and family, while continuing your solo fishing adventures? The deck boat is the perfect choice to enjoy the best of both worlds.

The deck boat is the ideal hybrid for combining the comfort of a pontoon boat with the performance of a fishing boat. With its V-shaped hull, formed from a single piece of H36 aluminum, the deck boat offers a better lift off from the water and consumes less fuel. With a powerful Mercury® engine, ultra-comfortable seating and a host of optional equipment, Princecraft®'s deck boats are distinguished by their quality and cutting-edge design.

INNOVATIVE CONCEPT

Princecraft®'s renowned deck boats are the result of a three-step assembly process: welding, riveting and assembling with an aeronautic adhesive. All of our riveted joints are inspected one by one and leak tested in our factory water tanks.

The corrosion-resistant aluminum extrusion, attached to the centre of the hull, plays a key role in the strength of our boats by preventing deformation of the material and absorbing the heat from the welding. This extrusion is attached with rivets, which are individually tested in a high-pressure water tank.

WHAT IS AN EXTRUSION?

According to the Centre d'expertise et d'innovation sur l'aluminium CeiAl,* "the extrusion process consists of subjecting a cylindrical billet of aluminum to the die of a hydraulic press, so that the metal comes out in the desired shape." In the form of a bar, angle, tube or square, aluminum extrusions are used for a perfect assembly of your boat. They limit breakage by absorbing heat when welding hull parts to preserve their mechanical properties. These corrosion-resistant structures are essential to your pontoon's durability and these extrusions are an integral part of Princecraft®'s famous ultra-smooth hulls.

WHY ALUMINUM?

It's no surprise to still see almost 40-year-old Princecraft® pontoons on the water. This is because our premium materials, especially H36 aluminum, make our boats durable. This aluminum alloy offers unmatched strength and resistance to impact and the elements (such as rocky piers and branches), so you can dock on rough shores without worrying about cracking your boat.

Compared to a fiberglass boat, an aluminum one is light, allowing it to be on plane at low speeds and be easier to move. You can transport your boat on the road without having to buy a new, more powerful vehicle. Your aluminum boat is also safer and has better resale value on the market, while having minimal maintenance costs.

* Source : Alu Québec. « Transformation de l'aluminium ». <https://alquebec.com/industrie/transformation/> [août 2021].

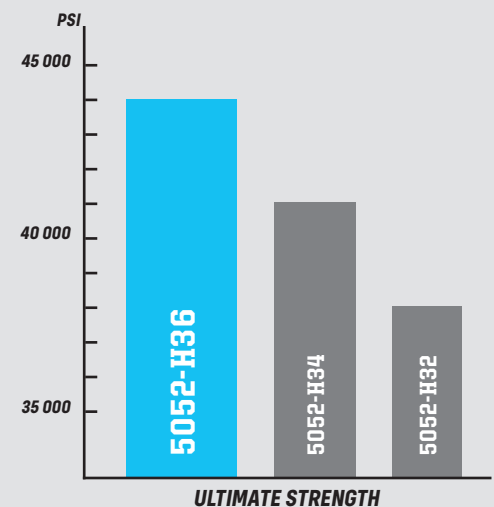

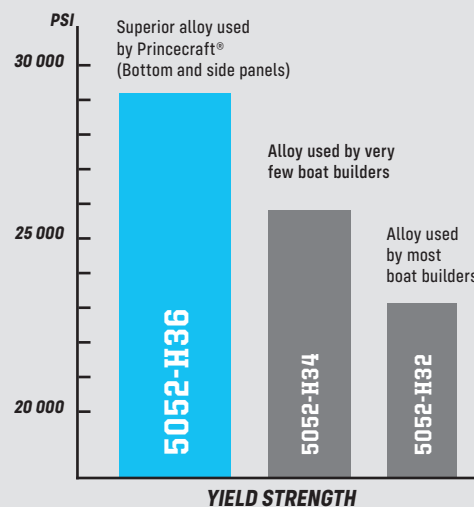

5052-H36 ALLOY: A DURABLE AND FLEXIBLE ALUMINUM

To make an alloy (a mixture of aluminum and other elements, for example, magnesium), large blocks of aluminum are pressed in rollers. The more the aluminum is crushed when it comes out of the press, the more rigid it will be and the better its resistance to impact and deformation.

At Princecraft®, we opted for the 5052-H36 aluminum alloy, which is 25% stronger than our competitors, who use H34 or H32 instead. Its yield strength properties and ultimate strength make it the material of choice for boat design. For this reason, all Princecraft® pontoon and deck boat bottoms and sides are made with the H36 aluminum alloy.

Yield strength is the limit to which a material can deform and return to its original shape. Once the elastic limit is exceeded, the material (in this case, H36 aluminum) will not return to its original shape and will remain marked. In effect, this means that your H36 aluminum shell will be more flexible and less dented when in contact with rocks.

Ultimate strength is the pressure or weight a material can withstand before breaking. H36 aluminum can withstand impacts of up to 44,000 pounds per square inch, preventing your boat from cracking and leaking.

* Study conducted by Alcoa Innovation in 2011

VENTURA

VENTURA 220 WS

SHOWN IN WHITE

WITH OPTIONS

- › Entertainment Package
- › Anodized wakeboard tower
- › LED docking lights
- › Select dark grey vinyl floor covering

KEY STANDARD FEATURES

- › High performance deep-Vee reverse chine hull design
- › In-floor lockable ski storage compartment
- › Built-in floor cooler
- › Black dash panel with lighted switches
- › Complete instrumentation: tachometer, voltmeter, speedometer, trim, and fuel gauges
- › No-FeedBack™ steering system with dual cable
- › 200-watt AM/FM/Bluetooth® Kicker® Stereo with integrated USB plug and auxiliary input (1/8") in console, including 4 waterproof speakers
- › Captain's chair on slide and swivel
- › Black pearl woodgrain pedestal mount removable stern table with drink holders
- › Full-width rear padded sundeck
- › Black bimini top

VENTURA 220 WS

- › Twin console with walk-thru tempered glass windshield with door
- › Port console with integrated entertainment center, including ice chest and storage

VENTURA 190

- › Helm console with glove box

OPTIONAL CONFIGURATIONS

SPEED, SPORT, AND PERFORMANCE

POWER AND SPEED: CHOOSE WHAT'S RIGHT FOR YOU

PRINCECRAFT® OFFERS A NUMBER OF PERFORMANCE CONFIGURATIONS TO ENSURE YOUR PONTOON BOAT IS PERFECTLY ADAPTED TO YOUR NEEDS. OUR ADVICE: CHOOSE THE ONE THAT WILL MEET ALL YOUR NEEDS FOR YEARS TO COME!

CLASSIC CONFIGURATION

These pontoon boats are equipped with a double pontoon, which provides stability, maneuverability, and a high degree of comfort for both driver and passengers. This configuration is perfect for outings with friends, fishing excursions, and long trips that do not require high speeds.

The Classic Configuration is offered by default on all models except Vogue® 27 XT and Vogue® 27 RL.

SPEED CONFIGURATION

Want to go faster, cover greater distances, or get from A to B more quickly?

Add reinforced tube noses and lifting strakes to your 2-log pontoon boat. You'll increase your maximum speed by 25 to 30%.

Available on all models except: Vogue® 27 XT, Vogue® 27 RL, Vectra® 19, Vectra® 17, Jazz Series, Brio® Series, and Voyageur Series.

SPORT CONFIGURATION

Choose the perfect compromise between Speed and Performance Configurations: adding reinforced tube noses, bow central half third log, and lifting strakes to reach speeds while having an affordable configuration.

This configuration allows a motor range from 90 up to 200 horsepower. Available on 21 thru 25 foot long pontoons (Vectra®, Sportfisher, Sportfisher LX, Quorum®, and Vogue® Series).

Available on all models except: Vogue® 27 XT, Vogue® 27 RL, Vectra® 19, Vectra® 17, Jazz Series, Brio® Series, and Voyageur Series.

PERFORMANCE CONFIGURATION

The Performance Configuration adds a third pontoon, which further increases maneuverability, stability, and buoyancy.

This allows your pontoon boat to handle a more powerful motor (up to 450 HP, Vogue® Series only) that will propel you through the water more quickly. Perfect for water sports fans!

Available on all models except: Sportfisher 21-2RS, Sportfisher 21-4S, Sportfisher 21-2S, Vectra® 21 RL, Vectra® 21 LT, Vectra® 21, Vectra® 19, Vectra® 17, Jazz Series, Brio® Series, and Voyageur 21.

FULL-LENGTH ALUMINUM UNDER-DECK SPRAY SHIELD (VOGUE® ONLY)

5 FEATURES OF THE PERFORMANCE CONFIGURATION

- 1 A third full-sized tube lets you install a more powerful motor and improves stability, performance, and load capacity.
- 2 Lifting strakes reduce the surface of tubes in the water, improving performance and helping the pontoon plane at high speeds.
- 3 Hydraulic steering improves maneuverability at high speeds.
- 4 Reinforced pressure points on stress zones (e.g., tube noses) absorb more impact and pounding from waves.
- 5 An under-deck aluminum spray shield prevents waves from hitting the cross channels for a smoother ride and better performance at high speed.

MORE POWER, MORE SPEED

THE PERFORMANCE CONFIGURATION IS THE BEST CHOICE FOR THRILL FANS!

PONTOON SPECIFICATIONS

Includes 3rd log, aluminum under-deck spray shield¹, lifting strakes, reinforced tube noses, 185 L/49 U.S. gal. gas tank, and an in-floor storage compartment².

The Performance Configuration is offered by default on the following models:

- › Vogue® 27 XT and Vogue® 27 RL.

¹ The aluminum under-deck spray shield is full-length on the Vogue® Series.

² The in-floor storage compartment is not available on the Voyageur 25.

| PERFORMANCE CONFIGURATION | APPROXIMATE WEIGHT | MAXIMUM HP CAPACITY* | MAXIMUM WEIGHT CAPACITY* | MAXIMUM WEIGHT PERSON CAPACITY* | MAXIMUM PERSON CAPACITY* |

CUSTOM MULTIFUNCTION TRAILERS

YOUR CUSTOM-MADE, HEAVY DUTY PRINCECRAFT® TRAILER FOLLOWS YOU WHEREVER YOU GO TO MAKE YOUR LIFE EASIER!

MOST PRINCECRAFT® TRAILERS ARE EQUIPPED WITH THIS SYSTEM

This ingenious system combines the advantages of grease and oil to create an ultra high performance lubricant. At room temperature, its viscosity is similar to that of grease. But as the bearings heat up, the lubricant becomes more fluid coating the bearings better to more effectively reduce friction and dissipate the heat generated during towing.

Each bearing is encased in a completely sealed, airtight, leak-proof, pressurized chamber.

1 Heavy-duty winch*

2 Carpeted load guides*

3 Waterproof recessed LED lights*

4 Tongue jack*

5 Optional mag wheels*

* On most models or optional

CUSTOMIZED TRAILER FOR DECK BOATS

- › Custom-made to fit your boat's hull
- › Composite fenders with built-in step pads
- › Large radial tires
- › Single or tandem axle, depending on boat size
- › Heavy duty winch
- › Load guides
- › Black or galvanized
- › Swing tongue

GALVANIZED, BUNK STYLE SINGLE-AXLE TRAILER

- › Available with Voyageur 21, Jazz Series, Brio® Series, Vectra® 17 / 19 / 21 / 21 LT / 21 RL, and Sportfisher 21-2S / 21-2RS / 21-4S

GALVANIZED, TANDEM-AXLE, SCISSOR-LIFT TRAILER

- › Convenient for shallow water
- › Engineered to lift pontoon out of the water or off the ground
- › Standard brakes

GALVANIZED, BUNK STYLE, SINGLE-, TANDEM-, OR TRIPLE-AXLE TRAILER

- › Designed for long distance travels
- › Superior load capacity
- › Standard brakes
- › Possibility of adding an optional conversion kit for 3-log pontoon models

CANVAS AND COVERS: A PERFECT FIT

INSIST ON CUSTOMIZED CANVAS TOPS AND COVERS FOR YOUR PONTOON OR DECK BOAT. AS ALWAYS, PRINCECRAFT®'S STANDARD OF QUALITY ENSURES TOTAL SATISFACTION!

- › Made exclusively with durable marine quality fabric
- › Superior resistance to wear and tear
- › Superior water repellence thanks to a transparent acrylic coating
- › Precision fitted, high quality windows, zippers, and fasteners
- › Custom-designed for a perfect fit in a snap
- › Stows easily
