Princecraft

Pontoon and Deck Boat

Advantages

Awesome comfort and convenience combined with legendary performance, strength and durability.

Princecraft knows comfort and convenience make a pontoon and a deck boat extra special. But, when you're lounging around with friends and family, it's nice to have the added peace of mind that comes from knowing your boat is built to the highest levels of strength and durability. Princecraft design excellence and construction integrity give you an unseen bonus no other brand can offer. Yes, not only do these boats offer luxury, special features and slick performance for more fun, they also provide a feeling of trust. It's all part of the unique pride of ownership shared by Princecraft enthusiasts.

Compare the design and construction advantages

of Princecraft pontoon boats.

Fast, Dry Dolphin Nose

The SVX and Versailles series feature our exclusive dolphin nose bow with built-in splash guards. The dolphin nose bow has a reinforced keel at the front to break waves effortlessly. The result is a drier ride for everyone on board.

V-Shaped Motor Pod

This design helps reduce engine noise and vibration. Your boat is quietly powered through the water with little interference.

Multi-Chamber, Unsinkable Tubes

Princecraft pontoon tubes are carefully constructed of the highest grade marine aluminum in a perfectly round shape to ride high on the water and support the heaviest loads. They are built with multiple, air-tight chambers and are unsinkable. Each tube is thoroughly tested so you can enjoy maximum safety.

Full-Length Keels for Care-Free Stability

Princecraft pontoon tubes are outfitted with full-length, extruded aluminum keels. They allow your boat to travel with ease even when there's choppy water. They also absorb impact and reduce abrasion when landing on a sandy beach or rocky shore.

Extruded Aluminum Alloy Bonus

Princecraft uses extruded aluminum alloy in M-bracket and Z-bar construction for extra strength and dependability. It creates a resilient backbone and framework that delivers outstanding performance.

Strong, Water-Resistant Decks

Princecraft pontoon boat decks are built from 3/4-inch pressure-treated plywood and are solidly backed by the lifetime limited warranty. Your pontoon deck is designed and built to give you years and years of enjoyment.

Enter the Princecraft Fun Zone

Where it all comes together
as a family room on the water.

The Fun Zone is uniquely designed by Princecraft to add hours of enjoyment to your time on the water. Blending function and style, this area at the boat's stern is ideally suited for both relaxation and recreation, day and night. Innovations like the Fun Zone are what keep Princecraft at the forefront of the boating world.

- Unique styling and design features for all day comfort and enjoyment
- Ultra-plush furniture
- Oversized swim platform
- Stereo remote control
- Drink holders
- Unparalleled fit and finish for convenience and safety
- Anti-skid vinyl flooring
- Smooth fence rails
- Finger-pinch guard hinges on all gates
- Easy access to engine

Princecraft Deck Boats. Solid as a rock, but light and nimble.

Princecraft deck boats are made from the toughest aluminum alloy available for marine use. They are built in a meticulous three-step process combining welding, riveting and aeronautic adhesives. They are some of the most soundly constructed boats on the water. Yet, their light weight and excellent hull design give them top performance, super stability and a smooth ride. And, like all Princecraft boats, fit and finish is outstanding.

Here are some of the Princecraft deck boat advantages:

- Longer life, higher resale value
- More performance from less horsepower
- Plane faster; stay on plane at slower speeds
- Better fuel efficiency, easy towing
- Lower maintenance than fiberglass
- Greater hull resilience
- Higher all-around durability

Deck Boat

SERIES

Vacanza® Series

The Vacanza series takes the deck boat concept to a new level in comfort, versatility and fun for family and friends. This deck boat matches or exceeds the room, smooth ride and sculptured lines of fiberglass runabouts its size, but outshines them with lightweight efficiency, spirited performance and low maintenance advantages only aluminum can provide. The nimble Vacanza proves being spacious doesn't mean being clumsy! And when it comes to luxury, you'll find the Vacanza simply to be in a league of its own.

Ventura™ Series

The exciting Ventura series lets you choose a deck boat that's designed for fishing, but also doubles as a great boat for cruising and water sports. Or...you can choose a Ventura deck boat that's just what you want for cruising and water sports, but also doubles as a great boat for fishing. Model by model, it's all a matter of selecting the boat with the particular feature emphasis and seating configuration that matches your preference. With any choice, you'll enjoy the wide-beam stability, quick-to-plane performance and incredible comfort these roomy Princecraft deck boats deliver.
