# Pontoon Boat Performance Package

## Touch the throttle and feel the action

Some pontoon boat fans want more muscle for water sports and faster cruising. That's why Princescraft buyers have the option, on some models, to order their pontoon boats with the three-tube Performance Package. This sporty package features a third full-size, full-length pontoon for extra flotation power and superior handling. It allows use of a more powerful engine to pop up skiers and wake boarders quickly and push heavy loads faster. The package includes specially reinforced pontoon mounts, lifting strakes and spray shields, plus hydraulic steering.

A third pontoon log expands your fun...

combines more lifting power and more speed...

and provides improved handling and stability.

## HYDRAULIC STEERING

With the improved performance of larger engines and faster speeds, Performance Package pontoons are equipped with hydraulic steering to accommodate larger engines and faster speeds, and provide easier maneuvering.

## THREE TUBES

A third pontoon log gives you better stability and performance while greatly increasing the load and power capacities.

## REINFORCED AT PRESSURE POINTS

With larger engines producing faster speeds, Performance Package pontoons are reinforced at pressure points such as the nose cone to absorb added stress and pounding.

## UNDER-DECK SPRAY SHIELD

The under-deck spray shield will provide a smoother ride and better performance at higher speeds by preventing waves from hitting under-floor cross channels.

## MORE LIFTING STRAKES

Lifting strakes give you additional lift for faster running by significantly reducing the surface area of the pontoon logs in the water, especially at high speeds.

## Pontoon Performance Package

Including a 3<sup>rd</sup> log, under-deck spray shield, hydraulic steering system & lifting strakes
