

Jons: The strong silent type

(Meet some) of the hardest working boats you'll ever own.

You can drag 'em up on shores, strap 'em to truck beds and car tops and they'll just keep coming back for more. Under power or paddle, they'll take you where you need to go and never let you down. Imagine, a boat that can carry you, your gear and the Princecraft name with no problem. Now that's worth a look.

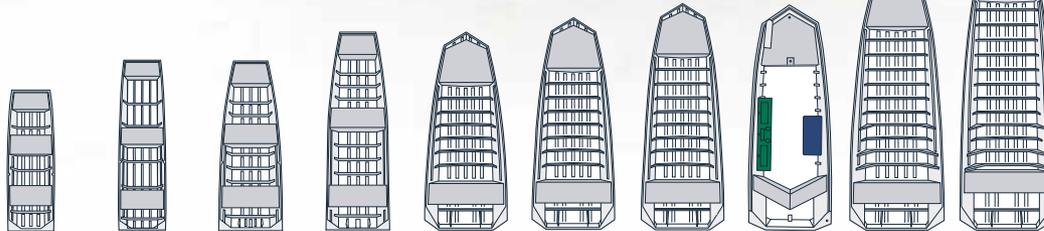

Key Standard Features

- One piece hull : giving more strength and no seams to leak
- Heavier gauge extruded ribs with higher temper factor for added strength
- Stainless thru bolted construction : corrosion resistant
- Vinyl paint with three part system : wash/primer/color
