To some, the Voyager wide open work space is perfect for hauling gear or supplies to remote work sites. To others, it is a blank sheet of paper on which to design their own one-of-a-kind family boat—complete with an optional boarding ladder and convertible top.

The compact Cadet is pound for pound the toughest utility pontoon on the water. From its durable, sealed chamber pontoon logs to heavy duty cross channels and pressure-treated wood deck, the Cadet is built to take on tough work boat duty and long days on the water in stride.

# For Simplicity & Durability

## The're Hard To Beat

**E**asy to own and easy to run, the Vectra 16 sports a roomy, stylish interior that's hassle-free and easy on your pocket book. Like the larger Vectras in the line, this compact, durable 16-footer is as sensible as it is tough. It features an aft lounge, twin bow lounges with storage and a molded helm console.

### Standard Features

- NMMA & Canadian Coast Guard certified
- 5052-H36 marine grade aluminum alloy
- sealed pontoon bulkheads w/ top mounted air plug
- all aluminum motor mount (20")
- full length extruded aluminum pontoon keels
- heavy-duty extruded Z-aluminum cross channels
- 1" anodized aluminum rails
- pressure-treated wood deck (3/4") covered w/ marine grade carpet
- reinforced stainless steel bow eye
- 4 mooring eyes

Boat/motor packages are available w/ Johnson & Evinrude outboard power (Vectra 16 only)

# Custom-Matched Trailer Options

## Deck Boat Trailer

Princecraft deck boat trailers are custom matched to fit the hull and feature step pads to make climbing in and out of your boat easy while on its trailer. Carpeted bunks hold your boat securely and prevent scratches. Available for all models.

## Princecraft offers three custom-matched trailer designs for pontoons

- 1. Painted bunk-style drive-on pontoon trailers** are available for 16 & 18 foot models. The 18 foot model (shown) comes standard with tandem axles and has 2500 lb. carrying capacity. The 16 foot model comes standard with single axles and has 1800 lb. carrying capacity.
- 2. Galvanized bunk-style trailers** are a tandem axle design, with brakes standard, and have greater load capacity than most competitors (3200 lb.). They make transporting and launching your boat more convenient. They are available in two sizes : one for 20/22/24 foot models, 96" wide, and one for Versailles 22/26 models, 102" wide.
- 3. Galvanized scissor-lift pontoon trailers** have a 3500 lb. capacity and make easy work of launching and loading your boat between seasons. Its specially engineered scissor design allows you to pick up your boat from the water or at ground level for seasonal storage. Also available in two sizes with tandem axles : one for 20 and 22 foot models and the other – with brakes standard – fits 24 and 26 foot models.
