Why choose a Princecraft?

IF YOU'RE LOOKING FOR A SMART INVESTMENT THAT PROVIDES QUALITY, COMFORT, AND PERFORMANCE, THE CHOICE IS CLEAR. CHOOSE A PRINCECRAFT.

We design all our pontoons and deck boats with the same goal — making sure you have a great time out on the water.

Our engineers know that reaching that goal means designing tough, reliable, and durable watercraft that provide total dependability and peace of mind. It also means ensuring that everyone on board always has plenty of space and loads of comfort.

Why choose a Princecraft?

Because you'll never regret it.

Deck Boats

SOLID PERFORMANCE

Everything about our deck boats—the exceptional design, assembly, welding, riveting, precise adjustments, series of tests they undergo, and flawless finish—is the result of painstaking attention to detail.

Plus, they're made with the toughest marine grade aluminum alloy available (5052-H36) and aircraft grade adhesive.

THE RESULT is a solid, high performing watercraft that is lightweight and astonishingly stable.

Ride a Wave of Advantages

- ▶ Less maintenance than fiberglass boats
- ▶ Better performance with lower fuel consumption
- ▶ Tougher and more durable
- ▶ Easier to tow
- ▶ Easier to stay on plane at lower speeds
- ▶ Higher resale value

Pontoons

BRILLIANTLY DESIGNED FROM START TO FINISH

QUIET PROPULSION

The V-shaped motor pod cuts engine noise and vibrations.

UNSINKABLE PONTOON TUBES

The toughest marine grade aluminum alloy available (5052-H36) provides better load capacity. Multiple airtight chambers make our pontoons virtually unsinkable. Each chamber is subjected to strict pressure checks to ensure our pontoons provide maximum safety.

STRONGER CORE STRUCTURE

Extruded aluminum M-brackets and Z-bars are tougher and more reliable, creating exceptionally high performing frame and core structure.

AERODYNAMIC DOLPHIN NOSE

(On Vogue Series and Performance Configuration only)

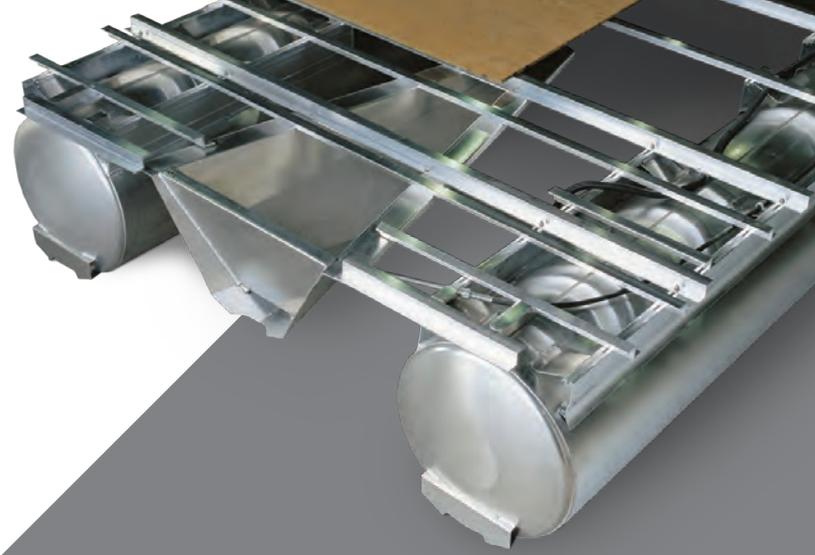

The extra long, reinforced bow breaks waves smoothly. Built-in splash guards on the tubes ensure a dry ride.

FULL-LENGTH KEELS FOR INCREASED STABILITY

Full-length, extruded aluminum keels on the tubes guarantee a smooth ride—even in choppy water—and absorb bumps when landing on sandy or rocky beaches.

DURABLE, WATER-RESISTANT DECKS

Built with 2 cm (3/4") pressure-treated plywood and backed by our limited lifetime warranty, our decks are designed to last for years.

For 2017, Princecraft offers 5 models equipped with a Bar aft section that allows you to fully enjoy your pontoon. It's the perfect place to relax while having a great view of the inside of the pontoon as well as the outside.

- ▶ Corner module allowing meals' preparation
- ▶ Cooler storage under this module with a 12V outlet (Quorum 23 SE and 25 SE only)
- ▶ 12V refrigerator and storage under the rear corner module (Vogue 25 SE, 27 SE, and 29 SE)
- ▶ Large counter space to eat or leave some finger food
- ▶ 4 adjustable stools (2 stools on Vogue 25 SE)
- ▶ Drink holders
- ▶ Storage

The Bar aft section is offered on the Quorum 23 SE and 25 SE, and on the Vogue Series (Vogue 25 SE, 27 SE, and 29 SE.)

DECK BOAT SERIES

With the high performance of a boat plus the comfort, stability, and spaciousness of a pontoon, Ventura deck boats are perfect for fishing, cruising, or both. Some people talk about genius, but we prefer to talk about innovation. We've also made the seats on this little floating marvel more comfortable than your living room furniture. Climb aboard a Ventura Series boat and you'll understand what a fun-in-the-sun machine really is.

PERFORMANCE Configuration

The Performance Configuration adds a third pontoon, which further increases maneuverability, stability, and buoyancy. This allows your pontoon boat to handle a more powerful motor (up to 400 HP) that will propel you through the water more quickly. Perfect for water sports fans!

Available on all models except:

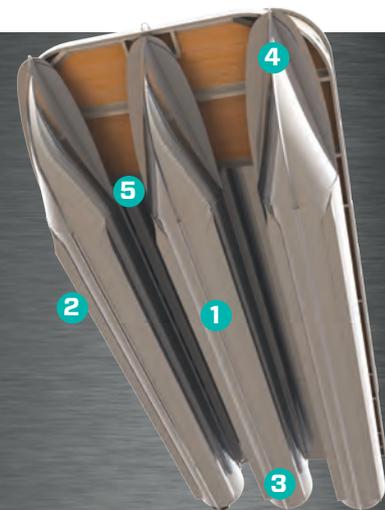

Sportfisher Series
Vectra Series
Jazz Series

Brio Series
Voyageur Series

MORE POWER, MORE SPEED:

The Performance Configuration is the best choice for thrill fans!

5 FEATURES OF THE PERFORMANCE Configuration

1. A THIRD FULL-SIZED TUBE

lets you install a more powerful motor and improves stability, performance, and load capacity.

2. LIFTING STRAKES

reduce the surface of tubes in the water, improving performance and helping the pontoon plane at high speeds.

3. HYDRAULIC STEERING

improves maneuverability at high speeds.

4. REINFORCED PRESSURE POINTS

on stress zones (e.g., tube noses) absorb more impact and pounding from waves.

5. AN UNDER-DECK SPRAY SHIELD

prevents waves from hitting the cross channels for a smoother ride and better performance at high speed.

Insist on customized canvas tops and covers for your pontoon or deck boat.

ALL PRINCECRAFT TRAILERS ARE NOW EQUIPPED WITH THIS SYSTEM

This ingenious system combines the advantages of grease and oil to create an ultra high performance lubricant. At room temperature, its viscosity is similar to that of grease. But as the bearings heat up, the lubricant becomes more fluid coating the bearings better to more effectively reduce friction and dissipate the heat generated during towing.

Each bearing is encased in a completely sealed, airtight, leak-proof, pressurized chamber.
