PRINCECRAFT®

FOLLOW YOUR SPIRIT OF BOATING— WE'LL TAKE CARE OF THE REST.

At Princecraft®, we make durable boats designed for you to make lasting memories on. Every day, we redefine the standards of boating excellence so you can explore lakes and rivers with total peace of mind. Our vision of excellence is driven by your passion for boating.

Our teams put their expertise to work in designing and building solid boats, so you can get the most out of your fishing trips, outings with friends, and quiet sunset sails. We put your safety—and your thirst for adventure—first in every boat we build. Trust our expertise and explore the natural beauty of our waterways. They have so much to offer.

SINCE 1954, OUR SPIRIT OF BOATING HAS GUIDED US IN EVERYTHING WE DO.

CANADIAN DNA

ALEX SURPRENANT

HEAD COACH OF THE MCGILL UNIVERSITY FOOTBALL TEAM IN MONTREAL

In my family, we've passed down our love of fishing from generation to generation. In my youth, I spent every summer aboard my grandfather André's Princecraft® boat. And we'd sail the rivers of the La Vérendrye Reserve together. My father taught me the spirit of boating. With him, I learned the ropes as a budding angler out on his boat powered by a Mercury® engine. The days were long and peaceful, and that's just how we liked it.

« FOR ME, THE PRINCECRAFT® NAME NOT ONLY MEANS RELIABILITY AND DURABILITY, BUT ALSO FOND MEMORIES AND GOOD TIMES WITH THE FAMILY. »

The years have changed, and so have the boats. For me, the Princecraft® name means not only reliability and durability, but also fond memories and good times with the family. I recently purchased a 19-foot Hudson® with a 115-horsepower engine, almost three times more powerful than my grandfather's! It's the perfect blend of tradition and innovation.

Now it's my turn to pass the spirit on to my sons and my wife. We fish on the Richelieu River, which feeds into the St. Lawrence, and twice a year, I take them to the waters of my childhood, in the La Vérendrye Reserve. Thanks to Princecraft®, we make the most of our time, catching fish and making unforgettable moments.

OUR PEOPLE. OUR IMPACT.

To build boats tough enough to handle changing and unpredictable weather and to anticipate every scenario that might unfold on our lakes and rivers, you have to really know and love the region. At Princecraft®, the teams who design and build your boat draw on their memories of summer, their fishing trips, and their love for the natural wonders of our land.

In our workshops, hundreds of enthusiasts put their expertise to work every day to build reliable, sustainable local products. This kindred spirit fosters a deep sense of belonging that inspires us to excel and quickly deliver on our promise to build better boats. From the first phases of R&D to the finishing touches, our teams work together to achieve nautical perfection.

Trust Princecraft®: We master the art of reading the waves, anticipating every swell and break—both out on the water and in an industry defined by the constant quest for excellence.

H36

A CONSCIOUS ENGINEERING CHOICE

At Princecraft®, every detail matters. That's why we made the clear and distinctive choice to build our boats with one of the best aluminum alloys on the market: 5052-H36. This premium material meets the highest standards of performance, safety, and durability—values we have upheld for over 70 years. Thanks to its high elastic limit, the hull is designed to better absorb impacts and reduce the likelihood of permanent deformation. This helps maintain structural integrity and provides added confidence for boaters.

STRONG, LIGHTWEIGHT, AND HIGH-PERFORMANCE

5052-H36 aluminum stands out for its superior ultimate strength, allowing it to withstand greater mechanical stresses than most other materials used in the boating industry. It offers exceptional durability, even under intensive use. Aluminum is significantly lighter than fiberglass, which allows for faster boats that are more maneuverable and energy efficient. Plus, aluminum is 100% recyclable and can be reused almost indefinitely, making it a more sensible and environmentally friendly choice for outdoor enthusiasts concerned about their environmental impact.

EXPERTISE THAT PROTECTS YOU

Working with 5052-H36 aluminum requires advanced technical expertise and specialized equipment. At Princecraft®, our factory teams have mastered this demanding material. Every boat is the culmination of precision craftsmanship built on cutting-edge technology and expertise honed over decades. When you choose Princecraft®, you are investing in a boat designed to last, perform, and protect you, crafted to help you navigate changing conditions with confidence. For us, your safety on the water is priceless.

ADVANTAGES

SUPERIOR STRENGTH

H36 aluminum is exceptionally impact resistant, providing a robust structure capable of withstanding the most challenging conditions. It's 25% stronger than the aluminum used by most of our competitors.

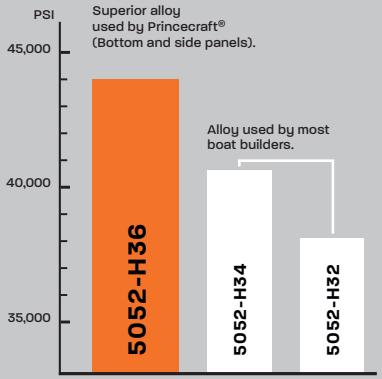

DURABILITY

H36 aluminum is so durable that it is not surprising to see our boats still out on the water more than 25 years after they were built.

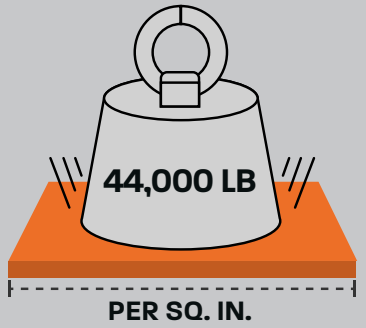

ULTIMATE STRENGTH

With its greater ability to withstand impacts before cracking or breaking, H36 aluminum can handle pressure up to 44,000 psi. Dock on beaches or rocky shores without fear of rupturing your boat[1].

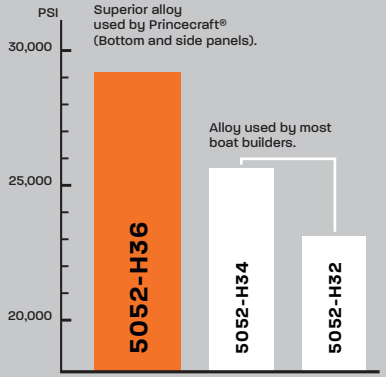

ULTIMATE STRENGTH

** Study conducted by Alcoa Innovation in 2011.*

YIELD STRENGTH

H36 aluminum has a high yield strength, allowing it to return to its original shape without denting. Your aluminum hull will flex more and dent less if it bumps into rocks.

YIELD STRENGTH

** Study conducted by Alcoa Innovation in 2011.*

[1] Launching in remote, shallow, or uneven locations could damage your boat or trailer, and any resulting damage may not be covered by your warranty. Please check your warranty or contact Princecraft® customer service for more information.

PONTOON
BOATS
THE SPIRIT OF
BOATING™

BETTER BUILT

Designed for novice and seasoned boaters alike, Princecraft® pontoon boats are reliable and hardy boats, engineered for maximum comfort and maneuverability. As soon as you set foot in their ergonomic interior, you'll notice that every detail has been carefully considered.

The seats and benches are spacious, and the backrests are at just the right height to satisfy all passengers. Among the best in their class for 40 years, our pontoon boats feature logs made of corrosion-resistant H36 aluminum. Smooth sailing ahead! Our boats are fitted with marine-grade equipment, so they can be passed down from generation to generation—and retain their resale value.

H36

Our pontoon frames are constructed with ¼-inch-thick H36 aluminum Z-bars for strength and durability. We use heavier-duty H36 aluminum tubes and robotically weld them to ensure unparalleled precision and assembly quality.

With Princecraft® pontoons, esthetics are just as important as construction quality. Everything is carefully selected for flawless good looks, from the concealed wiring and pressure-treated plywood flooring to the durable Top Gun fabric used in most canvas and covers.

For fishing, check out our models equipped with fold-down seats, livewells, trolling motor sockets, and special storage space for batteries and fishing rods.

For the ultimate boating experience, our boats feature lightweight, heavy-duty hydrodynamic motor pod designed to accommodate a wide variety of motors. We even positioned the fuel cap so it's always within reach, whether the boat is out on the water or on the trailer.

Each pontoon log boasts a full-length V-shaped keel to protect the tubes against possible impacts. Our boats are designed to cut through the waves so it's always easy to stay on course.

Visit our website for more details.

OPTIONAL CONFIGURATIONS

Visit our website for more specifics on each of our models.

CLASSIC

CONFIGURATION ★★

Stability, comfort, and maneuverability are the three pillars of our Classic configuration. It comes with two full-length pontoons and is perfect for those who enjoy spontaneous outings and fishing trips but don't need major acceleration.

Available on all models.
Exceptions: Vogue® series and Vectra® 23 WRL.

SPORT

CONFIGURATION ★★★★

In our pontoon lineup, the Sport configuration strikes the perfect balance between the Speed and Performance configurations. Available on 21- to 25-foot pontoons, this configuration adds a bow central half third log, splash-free reinforced dolphin nose cones, performance lifting strikes, and an aluminum under-deck spray shield, delivering impressive top speeds at a cost-effective price.

Available as an option for the Vectra®, Sportfisher, Sportfisher LX, and Quorum® series and comes standard on the Vogue® 23 RL and Vectra® 23 WRL. Not available for the Vogue® 27 WRL, Vogue® 27 RL, Vogue® 25 WRL, Vogue® 25 RL, and Vectra® 19 L, or the Jazz and Brio® series.

SPEED

CONFIGURATION ★★★

Big on adrenaline? This configuration was designed just for you. Boost your top speed by 25% to 30% with the addition of performance lifting strikes, splash-free reinforced dolphin nose cones, and an aluminum under-deck spray shield.

Available for the entire range.
Exceptions: Vogue® series, Vectra® 19 L, Vectra® 23 WRL, Jazz series, Brio® series.

PERFORMANCE

CONFIGURATION ★★★★★

This configuration adds a central full-length third log for enhanced stability and maneuverability. Another distinctive feature of the Performance configuration is the integrated in-floor storage in the third log, for optimal storage space in the heart of the boat. For thrill seekers, Vogue® series pontoons can even be fitted with a more powerful engine—up to 500 horsepower—for full-throttle acceleration.

The Performance configuration is available as an option for all pontoon models 23-feet and longer (Vectra®, Sportfisher, Sportfisher LX, Quorum®, Vogue®) and comes standard on the Vogue® 27 WRL, Vogue® 27 RL, Vogue® 25 WRL, Vogue® 25 RL.

Full-length aluminum under-deck spray shield (Vogue® series only).

VOGUE®

27 WRL | 27 RL | 25 WRL

FISHING BOATS

THE SPIRIT OF
BOATING™

PRINCECRAFT
PHANTOM
EDITION
SPORT 188

BETTER BUILT

To sail our lakes and rivers relaxed and carefree, you need a boat that can handle any condition out on the water.

For unshakeable strength and watertightness, our fishing boat hull bottoms are made of a single weld-free piece of H36 aluminum to reduce vibration. This attention to detail is a testament to the sophisticated craftsmanship of Princecraft® boats. Our manufacturing teams put in an extra layer of aluminum on the hull chine as well as a double-plated hull for better shock absorption. Riveting is preferred over welding because of its superior reliability and esthetic appeal. Plus, in the unlikely event of a breakage or rupture, fishing boats with riveted components are easier to repair.

H36

Twin-plated hull at major stress points: Full-length in the center and where the hull bottom meets the sides and transom.

FOLLOW YOUR FISHER'S
INTUITION—OUR BOATS
ARE DESIGNED TO GET YOU
WHERE YOU'RE GOING.
PRINCECRAFT
MERCURY
PLATINUM 220 R

FEATURES

Princecraft® fishing boats are designed by anglers, for anglers. The sight lines are carefully calculated, transparent panels provide enhanced 360-degree visibility, the protective covers are marine grade, and the deck layout is designed with fishers' needs in mind. Nothing is left to chance.

To deliver the esthetic appeal Princecraft® is known for, our fishing boats feature concealed cables and a durable high-gloss paint finish. Most boats come with factory-fitted snap fasteners designed to perfectly fit the available canvas and covers. The result: setting up your cover is quick and effortless. A small but distinctive feature that makes your time out on the water that much easier.

With hull angles of up to 19 degrees, these boats ensure superior comfort and ultimate performance in rough waters.

A TOWING SYSTEM BUILT TO LAST

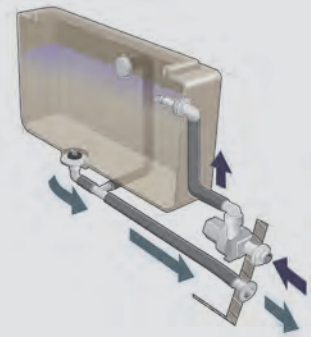

Most Princecraft® trailers feature an ingenious bearing system that combines the benefits of grease and oil for high-performance lubrication. What sets it apart is that it becomes more fluid under heat, allowing it to better coat the mechanism, reduce friction, and quickly regulate temperature. Equally impressive is the fact that each bearing is pressurized and then sealed to prevent infiltration and leaks.

With the Vault™ system, there's less trailer maintenance, which means you spend more time out on the water and less time stuck at the garage.

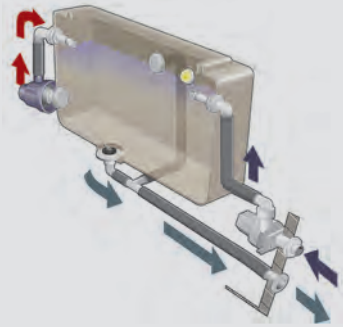

LIVEWELLS

Princecraft® offers a variety of high-quality livewells to keep your catch fresh and lively.

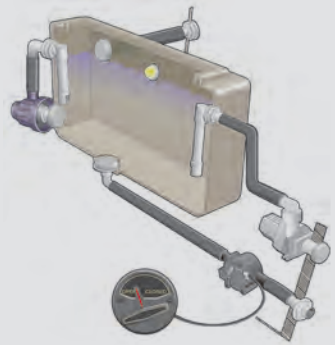

SPORTFLO™

This livewell comes with a filtered pump for optimal water circulation and aeration, along with an overflow system and anti-spill cover.

PROFLO™

The ProFlo™ livewell offers the same inclusions as the SportFlo™ model, but also includes an extra water recirculation pump, a light, and an intermittent recirculation system that gives you control over the water oxygenation rate. The system operates whether the boat is in motion or at rest.

PROFLO™ PLUS

This low-maintenance livewell features electric recirculation and fill functions, as well as a dual-pump system. Enjoy the peace of mind of knowing your bait and catch will stay fresh, whether you're cruising or anchored.

STYLE. POWER. PRESTIGE.

PLATINUM

EXCELLENCE ON THE WATER.

Experience the pinnacle of luxury and performance with our brand-new Platinum model. Designed for fishing enthusiasts looking for adventure on large bodies of water, this boat sets a new standard with its refined ergonomics, state-of-the-art console, and modular comfort made to adapt to your needs.

The images featured are early 3D renderings designed to showcase the product concept.
Final design and features may vary.

DOUBLE SEAT (WITH INTEGRATED LIVEWELL) THAT CAN BE CONVERTED INTO A TABLE OR FISHING PLATFORM.

OPTIMIZED CONSOLE COMPATIBLE WITH THE MOST ADVANCED TECHNOLOGIES.

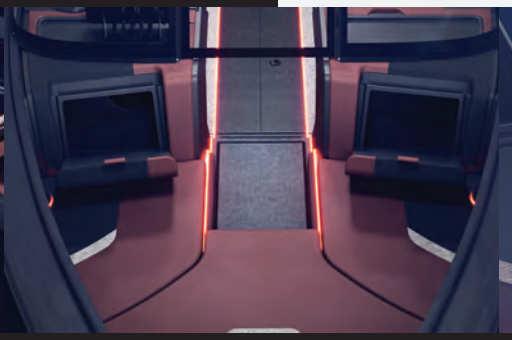

A GLIMPSE INTO THE FUTURE OF PREMIUM BOATING.

At the bow, a space designed for the most demanding boaters. At the stern, from the double seat (with integrated livewell) that can be converted into a table or fishing platform, to the central fishing rod storage compartment and reversible and adjustable rear platform, every detail has been designed to deliver a sailing experience as powerful as it is elegant.

FRONT PLATFORM: INTEGRATED ICEBOX, LIVEWELL, AND STORAGE SPACE FOR AUXILIARY BATTERIES.

MODULAR COMFORT: OPTIONAL BOW CUSHIONS TRANSFORM THE FORWARD SPACE INTO A LOUNGE AREA.

PASSENGER CONSOLE WITH STORAGE AND HERTZ RADIO.

SPACIOUS, LOCKABLE CENTRAL FLOOR COMPARTMENT FOR FISHING RODS.

PLATINUM 190 R

PLATINUM

220 R | 190 R

Platinum. A series that truly lives up to its name. In addition to a wide range of high-tech equipment options (ask to learn more!), these spacious boats come with two livewells, a lockable in-floor storage compartment, and heated seats for the captain (standard) and passenger (optional). Luxury awaits at the end of the dock.

HIGH PERFORMANCE

PURE SOPHISTICATION

Inspired by avid anglers and their determination to tackle the waterways in any condition, we constantly strive to redefine our standards of quality and safety. The boats in the Platinum series boast a double reverse chine hull and high freeboard, so you'll stay safe and comfortable no matter the weather.

ACCESSORIES

Since boating season can be short... Our wide selection of accessories will help you enjoy it to the fullest. For days that begin before dawn and end with the calls of the loons after dusk, you want absolute comfort. To see our entire lineup of accessories and learn more about each product, sail on over to our website.

SOUND SYSTEMS
Set the perfect mood with premium sound equipment.

LED LIGHTS
Keep everyone safe, while creating a cozy onboard atmosphere with our docking light and ambient lighting options. We offer various technology packages as options for a wide variety of boats.

CAMPER ENCLOSURES[1] AND BIMINI TOPS
All our pontoons and deck boats come with Bimini tops, as well as optional camper enclosures. For the more adventurous, fishing boats can also be fitted with full enclosures. Ask for details.

TABLES
Customize your boat by choosing your table model and configuration.

TOILETS
A must for full days out on the water! Available on the Platinum series and most pontoons and deck boats, onboard heads are a great add-on for families who like to anchor offshore or sail the day away!

SKI PYLONS
With our sturdy towing poles, your family can enjoy a wide range of fun-filled activities including water-skiing, and more.

[1] Full camper enclosures should only be used when the boat is anchored or stationary, never when the engine is running. Refer to the owner's manual.

TRAILERS

The best fishing spots are rarely the easiest to get to, and our outdoor playground is big. Very big. Princecraft® trailers are designed for dirt and gravel roads, because your fishing dreams don't stop where the paved roads end. Our trailers are galvanized to protect them from rust and are equipped with radial tires and a swing tongue (exceptions apply). On certain models, the plastic fenders can be replaced by steel fenders as an option.

BOAT AND DECK TRAILERS

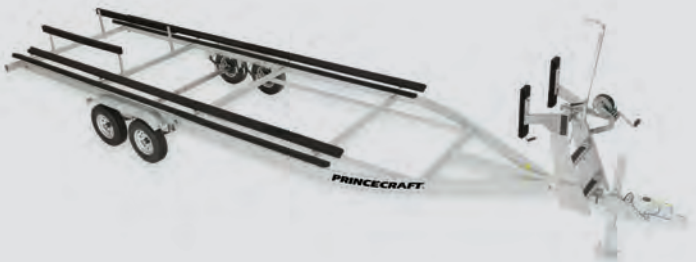

Galvanized, reinforced trailers with swivel parking jack, swing tongue, optional hydraulic brakes, and sealed Vault™ wheel bearings.

PONTOON TRAILERS

Heavy-duty galvanized bunk trailers with parking jack, front ladder and optional hydraulic brakes.

MOST PRINCECRAFT® TRAILERS ARE EQUIPPED WITH THE VAULT™ SYSTEM.

Each bearing is housed in a pressurized, 100% leakproof chamber. This ingenious system combines the advantages of grease and oil to create a high-performance hybrid lubricant that reduces friction and dissipates the heat generated during towing.
